Biological Molecules Pogil Answers - food.whistleblower.org

These organic molecules are the building blocks of all living things, and are responsible for most of the structure and functions of the body, including energy storage, insulation, growth, repair, communica- tion, and transfer of hereditary information.

Biological Molecules - Biology - Home

Included in this bundle is an individual POGIL activity covering the basics of carbohydrates, proteins, lipids, and nucleic acids. Each activity describes the structure and functions of all of these four biological molecules. Each activity will, once students have submitted their responses, record the results in a spreadsheet for your use.
