Now you don't have to listen to the standard, you can use something like m to represent a set without breaking any mathematical laws (watch out, you can get n years in math jail for dividing by 0), but this notation is pretty nice and easy to follow, so why not?. Also, when we say an element a is in a set A, we use the symbol to show it. And if something is not in a set use .

Although familiar from Grade 2, line plots in Grade 3 have the added complexity o f including fractions on the number line (2.MD.9,3.MD.4). In this lesson, students interpret scales involving whole, half, and quarter units in order to analyze data. This experience lays the foundation for them to create their own line plots in Lessons 7 and 8.
