in this tutorial and I will show you how you can quickly and easily remove the engine cover from a Chevy Equinox

How to remove the engine cover from a Chevy Equinox - YouTube

Sure, a plastic cover traps some heat, but not that much that you would notice any difference. Unless it's some rare case of a really bad engineering. And in some other cases the cover might be designed to channel the airflow to some part that tends to overheat otherwise, so removing the cover might even make the engine to run worse.

Wouldn't removing plastic engine covers make the engine ...

Twist the oil cap counterclockwise to remove it. Place the oil cap on a clean towel or cloth to protect it from contaminants. Grasp the left and right sides of the Ecotec's engine cover. Lift it upward to remove it from the engine.

How to Remove the Cover on an Ecotech 2.4 Engine | It ...

How to remove the top cover off the mazda 3 2013. How to remove the top cover off the mazda 3 2013.

Mazda 3 engine cover - YouTube

While doing some repairs, I lost one of the screws that holds the plastic engine cover on my Honda Pilot. It costs about \$10 to buy a new screw. If the engine cover serves no real purpose aside from having the Honda name on the top of the engine, why should't I just leave it off? I could save \$10, and may improve the cooling of my engine (every so slightly.) Thanks!

Re: engine cover How to remove Mar 27 2013, 12:57am yes, there are two rubber "nubs" on the top of the engine cover, they fit onto posts that come up from the intake.

SilveradoSierra.com • engine cover How to remove : Engine

The engine splash shield takes a beating because of its location in the undercarriage and also because of its function as a protective panel. While most car engine shields use high-performance plastic, extreme cold temperatures can make it brittle and cause parts to break off easily. Metal underbody covers als get damaged.

Engine Splash Shield - Front, Rear | CarParts.com

The cover is actually part and parcel with the air intake system going from the air filter box to the intake manifold. First remove the 2 large hose clamps on either end. Then unplug the electric fitting and the hose fitting. Next, reach to the back of the cover and, pulling up, dislodge the cover from the 2 rubber-mounted pins that hold it in place.

3.6L engine cover removal? | DODGE RAM FORUM
